

Candidate 17

Engineer | AI Research & Systems Engineer

email@example.com | portfolio.site | +91 98765 43210 | Bengaluru, India | LinkedIn/GitHub

Final-year student focused on high-performance systems and AI deployment.

Education

B.Tech in Artificial Intelligence, Amrita Vishwa Vidyapeetham

CGPA: 8.15 | 2022-2026

Skills

Programming: Python, Rust, TypeScript

ML: PyTorch, Transformers, RAG Pipelines

Work Experience

AI Research Intern - Tech Innovations Lab (2025 - Present)

- Integrated RAG pipelines with custom vector databases.
- Improved model inference speed by 30% via quantization.

Projects

Scalable Optimization Engine | Python, Docker, AWS

- Implemented ADMM for distributed sub-problem updates.
- Reduced solve times by 25% for high-dimensional constraints.

Publications

- Optimization using ADMM (IEEE 2025)
