

Vikram Singh

Engineer | Distributed Systems Engineer

email@example.com | portfolio.site | +91 98765 43210 | Bengaluru, India | LinkedIn/GitHub

Full-stack engineer with a focus on high-performance distributed backends and consensus protocols. Committed to building fault-tolerant cloud infrastructure.

Education

B.Tech in AI, BITS Pilani

CGPA: 8.45 | 2022-2026

Skills

Architecture: Microservices, gRPC, Event-Driven Design

Cloud: Terraform, Kubernetes, GCP

Work Experience

Cloud Infrastructure Intern - Zomato (2025 - Present)

- Managed Kubernetes clusters handling 1M+ concurrent requests during peak hours.
- Reduced cloud costs by 15% through automated instance rightsizing using Python and Terraform.

Projects

Raft Consensus Implementation | Golang, gRPC, Docker

- Built a distributed KV store with strictly serializable transactions.
- Simulated network partitions to verify 100% data consistency during failure modes.

Publications

- Latency Analysis of Raft Variants in Geo-Distributed Clusters (ICDCS)
